

THE WHITETAIL

Boise Building Company trademark qualities shine throughout our popular Whitetail plan!

A spacious great room showcases a solid stone hearth, oversized windows, and gleaming expanses of wood flooring. Shining from the custom designed kitchen are the richly grained alder cabinets, slabs of gorgeous granite, and a 4 piece appliance package.

The Whitetail is loaded with abundant storage (4 walk-in closets plus an oversized pantry with an appliance counter).

Pampering new owners is the luxurious master suite, complete with a fully tiled shower, separate free standing tub, and dual vanities. The master closet is conveniently located adjacent to the spacious utility room!
